WORK EXPERIENCE

Information Technology Analyst
Tata Consultancy Services 2018-2023 | Pune, India

Project: Tapestry ESI (Enterprise Sensor Integration)
Client : Boeing | Role : UI Developer Lead
Tech Stack: React.js, Redux, Material UI, JavaScript, HTML, CSS, React Leaflet
ESI is a smart middleware platform that connects people, machines, and data by integrating diverse sensors and systems across the enterprise. It enhances asset visibility and operational awareness through dynamic, map-centric user interfaces and real-time data visualization.
• **Led Front End development** of core ESI modules Asset, Tool, Device, and Zone Management) using React.js, Redux, and Material UI.
• **Optimized UI performance** and state management across complex, data-heavy screens
• Built dynamic, map-driven UIs with React Leaflet for real-time tracking and monitoring.

Project : Policy Portal
Client : Commonwealth Bank of Australia | Role : Senior UI Developer
Tech Stack: React.js, SharePoint SPFx, HTML, CSS
Internal policy and compliance management portal for bank employees.
• Implemented role-based access control RBAC for secure access.
•streamlined policy lifecycle management, enhancing efficiency, compliance, and user experience.

Project : Barclays Data Portal (BDP)
Client : Barclays | Role : Front End Developer | Tech stack: React.js, HTML, CSS, Jest, GraphQL, postman, swagger
• **Developed** a data-driven dashboard for visualizing financial data.
•**Mentored and trained** team members on React.js core concepts and best practices, improving development efficiency.

Software Engineer
The Digital Group **2014 – 2018 | Pune, India**

HRMS - TDG Product | Tech stack : React Native, JavaScript, Html5
• **Developed** HRMS, a React Native app, automating HR tasks like employee management and payroll.
• **Implemented secure access** and push notifications for efficient operations.
• **Ensured cross-platform compatibility** for iOS and Android.

PulseRx - TDG Product | Tech stack : Swift, XCode
Developed PulseRx, a Swift-based iOS app, improving doctor-patient interactions.

PROFESSIONAL SUMMARY

Experienced IT professional with 9 years of experience in software development, specializing in front-end development, UI team leadership, and scalable web applications. Proficient in React.js, TypeScript, JavaScript, Redux, HTML5, CSS3, and SharePoint SPFx). Skilled in designing high-performance web applications using modern frameworks, cloud technologies, and AI-driven solutions.
