Technical Skills

- **Languages & Frameworks:** React.js, JavaScript (ES6+), TypeScript, ASP.NET (C#), MVC, Redux, Angular, Swift
- **Web & UI:** HTML5, CSS3, Material UI, Tailwind CSS, SharePoint SPFx
- **Databases:** SQL Server, T-SQL, GraphQL
- **Tools & DevOps:** Git, GitHub, GitHub Actions, Postman, Swagger, CI/CD
- **Other:** REST APIs, Agile/Scrum, Unit Testing (Jest), Zustand, Webpack

Professional Experience

Information Technology Analyst

Tata Consultancy Services | 11/2018 – 11/2023 | Pune, India

Project: Tapestry ESI (Enterprise Sensor Integration) | Client: Boeing | Role: UI Developer Lead

- Led front-end development using React.js, Redux, and Material UI for core modules (Asset, Tool, Device, Zone Management).
- Integrated front-end components with .NET-based APIs and SQL Server data sources, enabling real-time operational awareness.
- Optimized UI rendering for data-heavy, reducing load times by 35% and improving user experience.
- Conducted code reviews and performance tuning, ensuring compliance with enterprise standards.

Project: Policy Portal | Client: Commonwealth Bank of Australia | Role: Senior UI Developer

- Built a policy and compliance management portal using React.js, SharePoint SPFx, HTML, CSS.
- Implemented Role-Based Access Control (RBAC) for secure user authentication.
- Collaborated with backend teams on SQL queries and stored procedures to support secure access workflows.

Project: Barclays Data Portal (BDP) | Client: Barclays | Role: Front-End Developer

- Developed a data-driven dashboard for visualizing financial datasets.
- Integrated front-end components with GraphQL and SQL Server for dynamic reporting.
- Mentored junior developers on React.js best practices, improving overall delivery efficiency.

Software Engineer

The Digital Group | 06/2014 – 11/2018

- HRMS (TDG Product): Developed a cross-platform React Native app for HR operations, integrated with SQL Server backend for employee management and payroll automation.
- PulseRx (iOS App): Built a Swift-based mobile solution enabling doctor-patient interaction with secure data handling.
- Discover Places (iOS App): Created a location-based navigation app, integrating GPS services and optimizing UX for seamless navigation.

Education

Bachelor of Engineering in Computer Science – RGTU, Bhopal, India | 2008-2012 | 67.47%

Training & Certifications

- Generative AI for Everyone – DeepLearning.AI
- Introduction to Generative AI – Google
